Ringlet

A microphone and touch ring for smart glasses.

Ringlet is a zirconia signet ring. Raise your hand and hold the pad to talk. Tap, hold or slide on the pad to control your glasses. It streams voice over Bluetooth LE Audio and charges on a small USB-C dock.

This is revision B. It is ready for a factory to quote and build a first run of 100 rings and 100 docks, sizes US 8 to 12.

In this pack

File	Contents
Ringlet_revB_specification.pdf	Overview, mechanical spec, BOM, electronics, assembly, test, sizing, dock, request for quote (EN, 中文), open items
